INDICATOR 1.2.1 Education and training actions aimed at young people organized by the local council and other socio-educational agents or bodies.
AIM 1.3. To identify academic and professional guidance actions organized by the local council.
INDICATOR 1.3.1 Local council services and programmes dedicated to the academic guidance and counselling of young people.
INDICATOR 1.3.2 Rate of personalized attention given to young people in academic information and guidance.
2. EMPLOYMENT
AIM 2.1. To ascertain the council's actions in professional information and guidance.
INDICATOR 2.1.1 Specialized municipal actions on professional information and guidance for young people.
INDICATOR 2.1.2 Number of young people requesting professional information compared to the entire youth population of the municipality
AIM 2.2. To ascertain those actions carried out by the local council in education and training for youth employment.
INDICATOR 2.2.1 Percentage of young people benefitting from education and training programmes for integration into the labour market compared with the total number of unemployed young people in the municipality.
AIM 2.3. To identify labour insertion programmes aimed at young people and organized by the local council.
INDICATOR 2.3.1 Local council actions aiding insertion of young people into the labour market.
INDICATOR 2.3.2 Specific strategies aimed at promoting the hiring of young people by the municipality.
AIM 2.4. To identify local council actions to promote youth start-ups and self-employment.
INDICATOR 2.4.1 Local council actions to create and promote start-ups and self-employment.
3. HOUSING
AIM 3.1. To identify the action of the local government in information and guidance regarding access to housing.
INDICATOR 3.1.1 Municipal actions and services to inform and guide young people about access to housing.
INDICATOR 3.1.2 Annual rate of responses provided to young people regarding housing.
AIM 3.2. To identify those actions adopted by the local government to aid access of young people to housing.

INDICATOR 3.2.1 Number of rental contracts signed by young people through municipal housing services compared to the entire youth population of the municipality.

INDICATOR 3.2.2 Percentage of local council-promoted or subsidized housing reserved for young people.

AIM 3.3. To identify alternative experiences in housing for young people organized by the local council or with its support.

INDICATOR 3.3.1 Alternatives to normal housing promoted by the local council for the municipality's young people.

4. HEALTH

AIM 4.1 To study the local council's actions regarding direct attention to those health issues that most affect young people.

INDICATOR 4.1.1 Municipal actions of direct attention to young people regarding health.

INDICATOR 4.1.2 Number of young people requesting information about health compared to the entire youth population of the municipality.

INDICATOR 4.1.3 Actions to aid and guide parents in the prevention of harmful behaviour.

AIM 4.2. To study actions regarding the promotion of health aimed directly at young people.

INDICATOR 4.2.1 Actions launched or organized by the local council to promote healthy lifestyles and behaviour among young people.

INDICATOR 4.2.2 Coordination of agents working on the promotion of health in the municipality.

INDICATOR 4.2.3 Number of young people participating in educational and training actions designed to promote health compared with the total youth population of the municipality.

5. PARTICIPATION AND ASSOCIATION

AIM 5.1. To identify the local council's support for the promotion of youth associations.

INDICATOR 5.1.1 Local government support actions for youth associations.

INDICATOR 5.1.2 Attention and support for actions by youth groups with no legal status.

INDICATOR 5.1.3 Coordination between youth associations or sections and the youth department staff.

AIM 5.2. To study local council support of individual or community youth participation.

INDICATOR 5.2.1 Average percentage of individual participation initiatives with institutional participation.

INDICATOR 5.2.2 Actions promoted or organized by the local council to foment civic participation among the municipality's youth population.

6. CULTURE

AIM 6.1. To study the range of cultural activities on offer to young people and organized, or supported, by the local government and its strategies in organizing and promoting these activities.

INDICATOR 6.1.1 Annual rate of cultural offerings for young people programmed by the local council, or with its support, compared with the number of the municipality's young people.

INDICATOR 6.1.2 Local government strategies to promote and support cultural activities organized by third parties.

INDICATOR 6.1.3 Percentage of youth cultural offerings compared with general cultural offerings by the municipality or with its support.

INDICATOR 6.1.4 Number of municipally supported cultural offerings organized by young people compared with total cultural offerings.

AIM 6.2. To study the support of the local council for the promotion of youth creativity.

INDICATOR 6.2.1 Local government strategies for promoting and supporting youth creativity.

INDICATOR 6.2.2 Percentage of young people benefitting from local council actions to promote and support youth creativity.

AIM 6.3. To identify the policies that enable young people to access cultural activities organized by the local council or with its support.

INDICATOR 6.3.1 Local council strategies to enable young people to access cultural activities.

7. SOCIAL COHESION

AIM 7.1. To study local council actions aimed at promoting coexistence.

INDICATOR 7.1.1 Actions and programmes developed by local government, or with its support, directed at young people with the aim of promoting coexistence.

AIM 7.2. To study local council actions aimed at fomenting the inclusion of the most disadvantaged groups of young people.

INDICATOR 7.2.1 Actions or programmes of the local council, or with its support, aimed at the inclusion of the most vulnerable groups of young people.

AIM 7.3. To study the actions of the local council aimed at eliminating gender inequalities among young people.

INDICATOR 7.3.1 Actions or programmes of the local council, or with its support, aimed at young people to reduce gender inequalities.

AIM 7.4. To study the actions of the local council to foment a positive image of young people.

INDICATOR 7.4.1 Actions of local council to foment a positive social image of young people.

8. SPORT

AIM 8.1. To study the offer of sporting activities for young people organized by the local council or with its support.

INDICATOR 8.1.1 Annual sports offer directly programmed by the local council.

INDICATOR 8.1.2 Actions of support and promotion by the local council of sporting events organized by third parties.

INDICATOR 8.1.3 Percentage of young people who participate throughout the year in programmed sporting activities organized by the local council or with its support.

AIM 8.2. To identify the policies of access to sporting offerings organized by the local council or with its support.

INDICATOR 8.2.1 Offer of sporting activities for different segments of the youth population.

INDICATOR 8.2.2 Local council strategies to facilitate youth access to sporting activities.

9. YOUTH INFORMATION AND ORIENTATION

AIM 9.1. To analyse resources and initiatives of the local council, or with its support, to provide information and guidance about everything related to youth policies.

INDICATOR 9.1.1 Rate of attention regarding information for young people.

INDICATOR 9.1.2 Actions that aim to make information reach young people.

10. MOBILITY

AIM 10.1. To study local government initiatives that respond to the specific needs of youth mobility.

INDICATOR 10.1.1 Municipal actions to adapt urban and inter-urban public transport to the mobility needs of the municipality's young people.

INDICATOR 10.1.2 Actions aimed at promoting the use of transport alternatives by the municipality's young people.

11. METHODOLOGICAL ASPECTS OF YOUTH POLICIES

AIM 11.1. To identify actions taken by the local council to coordinate the cross-departmental nature of youth policies.

INDICATOR 11.1.1 Methodology used by the local council to foment coordinated, cross-

departmental work in youth policies.

INDICATOR 11.1.2 The existence of cross-departmental plans that facilitate inter-departmental work on youth policy.

INDICATOR 11.1.3 Review and adjustment of cross-departmental plans, programmes and actions.

INDICATOR 11.1.4 Rate of involvement of municipal councillors in youth plans or projects.

INDICATOR 11.1.5 Inter-institutional work strategies related to youth policies on a municipal level between different local governments.

INDICATOR 11.1.6 Inter-institutional work strategies between organizations and the local government in relation to youth policies.

INDICATOR 11.1.7 Coordination of professionals and agents involved in the development of youth policy.

INDICATOR 11.1.8 Leadership of cross-departmental plans.

AIM 11.2. To detect those elements that aid in the planning and assessment of municipal youth policies.

INDICATOR 11.2.1 The existence of documents planning those actions aimed at young people directly organized by the local council.

INDICATOR 11.2.2 Assessment mechanisms and systems of those actions aimed at young people directly organized by the local council.

INDICATOR 11.2.3 The existence of local studies and diagnoses that reveal the needs and demands of young people.

AIM 11.3. To study the participation of young people in the design and deployment of youth policies.

INDICATOR 11.3.1 The existence of an elaborated method for youth participation in youth policies.

INDICATOR 11.3.2 Percentage of projects aimed at young people that incorporate some kind of youth participation process.

12. RESOURCES DEDICATED TO YOUTH POLICIES

AIM 12.1. To study the number and characteristics of local youth facilities.

INDICATOR 12.1.1 Percentage of area dedicated to local youth facilities with respect to the total youth population in the local government area.

INDICATOR 12.1.2 Number of hours per week the municipal youth facilities are open compared to the total youth population.

INDICATOR 12.1.3 Provision of technical resources of youth facilities for the development of activities.

INDICATOR 12.1.4 Correspondence between youth needs and municipal youth facilities.

AIM 12.2. To study the provision of personnel dedicated to youth policies.

INDICATOR 12.2.1 Weekly number of hours of personnel dedicated to deployment of municipal youth policy.

INDICATOR 12.2.2 Degree of seniority or number of years of seniority of municipal personnel dedicated to youth policies.

INDICATOR 12.2.3 Typology of municipal personnel dedicated to municipal youth policies.

INDICATOR 12.2.4 Number of professionals with a superior professional category compared with the total number of municipal workers dedicated to youth policies.

INDICATOR 12.2.5 Number of municipal professionals dedicated to youth policies with high work stability compared with the total number of the local council's staff.

INDICATOR 12.2.6 Local council strategies to facilitate continuous training of municipal professionals dedicated to youth-related matters.

INDICATOR 12.2.7 Percentage of expenditure on externalized human resources dedicated to youth policies.

INDICATOR 12.2.8 Percentage of municipal personnel dedicated to youth policy financed by different departments of the local council.

AIM 12.3. To study municipal provision of economic resources directed at youth policies.

INDICATOR 12.3.1 Percentage of current expenditure directed at youth policies.

INDICATOR 12.3.2 Current expenditure directed at youth policies compared with the municipality's youth population.

INDICATOR 12.3.3 Percentage represented by expenditure on personnel dedicated to youth policies compared with total of current expenditure dedicated to youth policies.

INDICATOR 12.3.4 Percentage of municipal expenditure directed at youth policy covered by each source of funding.

INDICATOR 12.3.5 Percentage of current municipal expenditure directed at the youth councillor.
